INTERNSHIP REFLECTIVE SUMMARY

Student Name:	Faiza Munir
Registration Number:	FA23-BSE-030
Degree Program:	BSE (Bachelor of Science in Software Engineering)
Batch / Semester:	5
Host Organization:	Masihai PVT LTD
Internship Duration:	3 Months
Faculty Supervisor:	Mr. Waqas Ali

1. Personal Evaluation of Internship Experience

(Briefly describe your overall experience, challenges faced, skills gained, and lessons learned.)

My internship at **Masihai Pvt. Ltd.** was a valuable experience where I worked on Flutter, Dart,

Firebase, and App-write. I faced challenges in backend integration but overcame them with practice

and guidance. The role improved my coding, debugging, and database handling skills. Overall, it

boosted my confidence as a future full stack engineer.

2. Relevance to Academic and Career Goals

(Explain how your internship connected to your coursework, strengthened your knowledge, and aligned with your career aspirations.)

This internship aligned well with my goal of becoming a **Full Stack Software Engineer**. It

me to apply concepts from OOP, Data Structures, Databases, and Software Engineering. I

strengthened my Flutter and backend integration skills, while also exploring scalable solutions

through Firebase. The experience directly supports my long-term career aspirations.

3. Suggestions for Improvement

(Provide constructive feedback for improving the internship experience for future students.)

The internship was rewarding, but improvements can be made. A structured onboarding process

would help interns adapt faster.

More exposure to cross-team collaboration would also enhance learning about the full

development cycle.
